### Maths learning for today...

Please use your booklet I provided you with that has all the written methods for our arithmetic calculations inside.

Please complete 5-10 questions from the arithmetic sheet I provided you with. These questions are completely YOUR choice but you must use the appropriate method and show your working.

If you want to focus on one operation e.g. a day of adding, that is fine. On the other hand, if you want to mix it up and practice each different operation at once, this is also fine. The children are used to both ☺

(If your child is struggling, please adapt and change the numbers/questions as you please)

### English learning for today...

Today you have a grammar task ☺

Here is a clown – he's called **Ted** :D  
It is just coincidence that there's also a Ted in Year 2, I promise! ;)

Can you write 3 questions you'd like to ask Ted the April Fool's clown?

Think about:

- Questions words
- What does your question need to start with?
- What comes at the end?

### Optional - wider learning for today...

Today is PSHE and FENCH

- Spend 30 minutes learning on DUOLINGO and teach someone in your family what you've learnt
- You need to make me, someone, yourself or a teddy LAUGH!

Play an April fool on someone, write down your best joke, send me your silliest face. Laughing and sharing jokes with others is a very good way to look after your mental health and wellbeing. So have some fun with it!
